

Staerkle & Nagler AG

Leading the way in raw materials

Your Partner for Food Additives and Raw Materials for the Chemical Industry

For over 50 years Staerkle & Nagler AG, a Swiss trading and service company, has offered its customers a wide range of raw materials and additives. We are the chosen distributor and representative of several leading producers. Our products are mainly used in the chemical and food industries.

Services

The customer is the centre of our focus. We offer competent consultation and support as well as a balanced selection of products. The close relationships we enjoy with our suppliers, to whose know-how we have access, ensures that the right products and necessary documentation are delivered on time. We act as the connecting link between our clients and our network of international partners. Our warehousing facilities in Switzerland enable us to ensure prompt delivery and to offer other individual services.

Teamwork and Market Proximity

Thanks to small working groups, as well as a functional organisational structure, our committed and motivated employees are able to react promptly to specific customer and market demands. You will benefit from our excellent knowledge of the market and synergies.

S & N Chemicals

We market a variety of products, ranging from basic chemicals to semi-finished products, to specialties and additives for various applications to suit different customer requirements. With our suppliers, we offer commercial and technical support to our customers and guide them through the development and subsequent introduction of new products. Together we look for solutions for product enhancement and development of customised products.

Our main activities are in

- Biotechnology
- Building Chemicals
- Chemical Syntheses
- Crop Protection
- Galenics
- Industrial and Household Cleaners
- Paints and Varnishes
- Paper
- Processing Additives
- Rubber and Plastics
- Water Treatment

S & N Food

Food requirements have changed substantially within the last two decades. We offer our support to customers for their continuous improvement of the nutritional values of food products, raising satisfaction levels, ensuring that they are free from harmful substances and making them more convenient.

As the chosen distributor and Swiss representative for several leading suppliers of selected raw materials, semi-finished products and additives, we have gained many years of experience and have been successfully active in the respective application areas. Our S&N Food Team of committed professionals strive to procure the required products. Our consultants, application technicians as well as our suppliers' team of specialists are experts at finding constructive and customised solutions for our clients.

- Ice Cream
- Jams and Jellies
- Meat Products
- Milk Products
- Pasta
- Soups and Sauces
- Sugar
- Sweets and Candy

Staerkle & Nagler AG

Leading the way in raw materials

Half a Century of Market Experience

The company, Staerkle & Co, was founded in 1946 by Emil Staerkle in Zurich. The former Managing Director of the chemical company Dr. Maag AG (known as Syngenta today), Mr. Staerkle, brought with him several years of experience which enabled him to build a large customer base. The young company traded raw materials and chemicals not only on its own behalf but also acted as agent and representative and supported local and foreign customers. The range of products and services offered was adapted to comply with changing market demands.

In 1978, the company became a corporation. When Peter Nagler, Emil Staerkle's son-in-law, joined the company, it was renamed Staerkle & Nagler AG. Peter Nagler successfully headed the company from 1978 to 1996.

Between 1986 and 1997, the 3rd generation joined the company, namely: Katrin Strickler-Nagler, a Member of the Board of Directors and Director of Finance, Hans Strickler-Nagler, Managing Director, Bettina Nagler, IT and QS, and Tibor Gyarmathy-Nagler, Chemical Sales. Hans Strickler took over as Managing Director in 1997 and was appointed President of the Board of Directors in 2002.

During the last few years, Staerkle & Nagler AG has grown progressively. In 2001 the firm moved its headquarters to Zollikon into modern offices with an excellent infrastructure. In accordance with long-term company strategies, Staerkle & Nagler AG restructured its core activities and focused on food products and chemicals. The selection of products, areas of distribution and consultation services are continually being enhanced.
